HOBBIES

 Gaming  Camping  Football

EXPERIENCE

Backend / Full-Stack Developer

[iOne \(iOneCard Platform\)](#) | 2025 – Present

- Architected and built 10+ production modules: Device Protection, Trade-In, Installment, Training, Corporation Registration, Visa Card, Gift Card, Service Center, and Search.
- Designed and implemented RESTful APIs consumed by iOS/Android mobile apps with token-based auth, ThinkPHP5/FastAdmin backend.
- Built admin portal CRUD pages with export (xlsx/csv), drag-sort, status toggle, date range filters, and email notifications via PHPMailer.
- Managed Docker containers (PHP 8, MySQL 8, Redis, Nginx) and deployed with Git branching per feature.
- Integrated PHPMailer SMTP email notifications across multiple registration modules.
- Implemented search functionality with user-level history, popular keyword suggestions, and full product filtering.

Web Developer

[Blueprint Technology \(Masterchat.io\)](#) | 2024 – 2025

- Developed front-end and back-end features for a real-time chat platform.
- Implemented responsive UI, real-time messaging, and API integrations.
- Improved system performance, security, and user experience.

Web Developer Intern

[Inklusivity Technology](#) | Aug 2022 – Jan 2023

- Built Point of Sales, Inventory & Warehouse Management, CRM, and Vendor Management systems.
- Delivered multi-shop and multi-warehouse management features.

Junior Graphic Designer

[The Flora](#) | Oct 2022 – Apr 2023

- Started in a supervisory graphic design role, promoted to Junior Graphic Designer.
- Produced visual assets and brand materials.

KEY PROJECTS

iOneCard Platform (PHP/ThinkPHP5)

Full-stack production platform with 10+ modules including Device Protection insurance, Trade-In, Installment, and real-time search with history.

Masterchat.io (Laravel/JS)

Real-time chat system with responsive UI and Firebase integration.

ERP System (PHP)

Multi-shop POS, inventory, warehouse, CRM, and vendor management system.
